Integrated Security Control Solution

The Syntinel platform is the next generation control system for your facility. The non-proprietary solution can be customized to meet your facility's specific requirements, and it can integrate your current systems into a single, easy to use, platform for complete security control.

⊙ CUSTOMIZED CONFIGURATION
Utilizing our industry leading platform, Syntinel offers a fully customizable, scalable solution that seamlessly integrates a wide range of products and services that meet or exceeds your facility's operational requirements.

⊙ EXPERIENCED CORRECTIONAL ENGINEERS
STANLEY's Correctional Group staffs four-year degreed engineers in all areas from sales and service to engineering and management. All our engineers are trained in the technologies needed for today's complex systems.

⊙ NON-PROPRIETARY SOLUTION
We use our knowledge and experience to customize a non-proprietary solution that allows for interoperability with multiple systems. By customizing specialized functionality and integrating 3rd party hardware or software, it reduces system downtime and up-front costs of products and installation.

⊙ ADVANCED MULTI-TOUCH INTERFACE
Syntinel is the only complete, multi-touch interface on the market today. Make informed decisions with centralized access to all security information. This full visibility and control at your fingertips leads to operational efficiencies and allows for quick assessment leading to faster response times.

⊙ ROBUST DATA LOGGING & REPORTING
Gain insights into facility trends, ongoing maintenance needs and day-to-day operations. The Syntinel interface maximizes displayed information in a user-friendly format while prioritizing activities in the event quick action is needed.

⊙ SYSTEM HEALTH MONITORING
Assure your system is always operating as intended. Get notified when a service issue exists, diagnose the problem, and recommend the specific solution to fix the issue leading to reduce system downtime.

SYNTINEL™
Integrated Security Control Solution

Full Visibility, Security and Accountability

Control at Your Fingertips

- Doors
- Access Control
- Utilities and Building Management
- Activity List
